SUMMARY

Self-motivated Front-End Web Developer with solid foundations in HTML, CSS, JavaScript, and React. Built several responsive and interactive web applications and currently developing a full-stack crime evidence tracking system using PHP and MySQL. Seeking an internship opportunity to apply skills in a real-world environment and grow as a developer.

TECHNICAL SKILLS

Languages: HTML, CSS, JavaScript, SQL, Java, Python

Libraries/Frameworks: React

Tools: Git, GitHub, VS Code, XAMPP

Other: Responsive Design, MySQL, DOM Manipulation

PROJECTS

- **Crime Evidence Tracking System** Apr 2025 – Present
PHP, HTML, CSS, MySQL
 - Designed and implemented a secure web-based system to track and verify crime evidence.
 - Integrated role-based access control for admins and officers.
 - Used MySQL for storing case data and PHP for backend logic and validation.
- **E-commerce Website** Mar 2025
HTML, CSS, JavaScript
 - Created a responsive online shopping interface with product listings and cart logic.
 - Focused on UI/UX design and dynamic DOM manipulation for cart updates.
- **Music Website Clone** Feb 2025
HTML, CSS, JavaScript
 - Cloned the look and feel of a popular music streaming platform.
 - Implemented hover effects, playlist UI, and basic interactivity.
- **Netflix Clone Page** Feb 2025
HTML, CSS
 - Developed a front-end clone of Netflix landing page using React and styled-components.
 - Included responsive hero banner, featured content, and interactive buttons.
- **Portfolio Website** Dec 2024
HTML, CSS, JavaScript, React
 - Created a personal portfolio website showcasing my front-end projects.
 - Responsive design with animated sections and project links using modern CSS techniques.

EDUCATION

- **Presidency University, Bangalore** Expected Graduation: 2027
B.Tech in Information Science and Technology **CGPA: 8.28/10** Bangalore, India
- Relevant Coursework: Web Development, DBMS, Software Engineering, Data Structures

CERTIFICATIONS

- **Hackaton Certification** – Presidency University, Apr 2025
- **Artificial Intelligence Fundamentals Certification** – IBM, Mar 2025
- **Python Beginners Course Certification** - Scalar Apr 2025

ADDITIONAL

- Active contributor on GitHub with version-controlled personal projects.
- Eager to learn modern frameworks and real-world development practices.
