SUMMARY

Full Stack Developer skilled in React, Node.js, Express, and MongoDB, building scalable and responsive web applications. Proficient in REST APIs, authentication, UI/UX design, and database management. Seeking an internship or entry-level role to contribute to real-world projects and grow as a developer.

TECHNICAL SKILLS

Programming Languages: JavaScript (ES6+), Java, Python

Web Technologies: HTML5, CSS3

Frontend Development: React.js, Tailwind CSS, Bootstrap, DaisyUI, Framer Motion

Backend Development: Node.js, Express.js

API & Authentication: RESTful APIs, JWT Authentication

Databases: MongoDB, MySQL

Tools & Platforms: Git, GitHub, VS Code, Postman

Core Concepts: Data Structures & Algorithms, CRUD Operations, Full Stack Development

PROJECTS

- **STEM – Real-Time Chat & Video Call Application** Live — 🐙 GitHub 2026
React.js, Node.js, Express.js, MongoDB
 - Built a real-time chat app with messaging, typing indicators, read receipts, and online presence.
 - Implemented JWT authentication, protected routes, and user onboarding with friend system.
 - Developed scalable REST APIs and optimized MongoDB for performance.
- **AI-Powered ATS Resume Analyzer & Builder** Live — 🐙 GitHub 2026
React.js, Node.js, Express.js, MongoDB, Cohere AI
 - Developed a SaaS platform to analyze resumes and generate ATS scores with keyword insights.
 - Integrated AI to enhance resume content and improve ATS compatibility.
 - Built resume builder with templates, PDF export, and scan history dashboard.
- **PromptVision Studio – AI Thumbnail Generator** Live — 🐙 GitHub 2026
React.js, Node.js, Express.js, MongoDB, Cohere, Hugging Face
 - Built an AI tool to generate YouTube thumbnails from prompts using Cohere and Hugging Face.
 - Implemented JWT + Google authentication and secure user sessions.
 - Designed history system to manage generated images with CRUD operations.

EXPERIENCE

- **Team Lead – Frontend Development** Jun 2025 – Sep 2025
SaaS Development Internship Remote
 - Led a team of frontend interns to develop scalable SaaS applications using React.js.
 - Designed and implemented reusable UI components, improving development efficiency and consistency.
 - Collaborated using Git-based workflows, code reviews, and agile practices to ensure timely delivery.
- **Freelance Frontend Developer** Aug 2025
Self-Employed Remote
 - Developed responsive and user-friendly web interfaces using React.js and Tailwind CSS.
 - Delivered client-focused solutions with optimized performance and modern UI/UX design principles.

EDUCATION

- **Presidency University, Bangalore** 2023 – 2027
B.Tech in Information Science and Technology CGPA: 8.38/10
